Mexican Bracelets

Mexico is famous for their silver. When staying at Our Cabana, you can go on a day trip to a Taxco, the silver capital of Mexico.

CRAFT

Cut a length of card long enough to go around your wrist. The card can be as wide as you want your bracelet to be. Make a bracelet shape and stick together. Make sure you can pull on and off your wrist.

Wrap the tinfoil around the card. This can be neatly or with texture depending on how you want your bracelet to look.

Use the end of your pen to make indents in the foil to make designs.

Your bracelet is now ready to wear!
