

## HOW TO

 20mins

## YOU WILL NEED

- 250g Icing Sugar
- 200g Condensed Milk
- 175g Coconut
- Red Food Dye
- Chocolate Buttons
- Silver Cake Decorating balls
- Strawberry Laces
- Mixing Bowl
- 3 Different Sized Spoons

## METHOD

1. Mix the icing sugar and the condensed milk together in a bowl. Mix in the coconut. Divide the mixture in two bowls.

2. Add a few drops of red dye to each bowl and mix it in. Then add a few more drops to one of the bowls.

3. Dip a clean tablespoon into some water and let it drip. Then, lift out a big spoonful of the mixture. (For baby mice use a teaspoon and for a medium mouse use a dessertspoon)

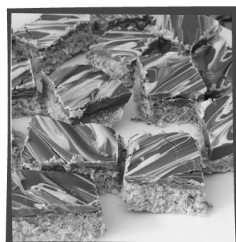

4. Pat the spoonful smooth over the top. Turn the spoon over and put the shape onto parchment paper.

5. Pinch a nose at the thinner end of the spoon shape. Then, add sweets for ears and silver balls for eyes.

6. Push a strawberry lace under the shape, as the tail. Leave the mouse to harden on a plate. Make more mice.

## OR MAKE IT SIMPLE

You could also just make the mixture and place into an 8 x 8 lined tin and smooth the mixture flat. Then melt some chocolate and spread over the mixture and allow to set, then cut into squares.
